

# MAKE TIME FOR **OUTDOOR PLAY**

---

# 14

## Croquet

- Place open ended tubes on their sides around the playground.
- Each child has their own 'mallet' and tennis ball.
- The aim of the game is to get the tennis ball through the tube and retrieve it before starting again at the next tube.
- Count the number of shots taken to get through each tube. The child with the lowest number of shots overall wins.

Don't forget to wash your hands regularly for at least 20 seconds.
