

TIPS FOR #OUTDOORPLAY

Bug Hunting

We know children love to go on a bear hunt, but what about a bug hunt?

There are lots of creepy crawlies to be found when you're out and about. Have a look under leaves, on the bark of trees, under stones, and even in ponds if you have any nearby.

What can you find? What colour is it? How many legs does it have? Does it have wings? Does it have fur?

If you can, take a photo of it so you can research more at home.

Remember though that bugs like their home so always put them back where you found them.

Have a look this checklist from the Woodland Trust to see how many minibeasts you can tick off:
