

Tips for Outdoor Play

1. Look for Animal Prints

- **Look out for the different animal tracks in the snow.**
- **Try and go out early in the morning when the tracks are fresh.**
- **Is it a bird foot print? A deer? A rabbit?**
- **Track where the animal footprints lead to.**
- **See how many different types you can find and take photos as you go to look up later!**

2. Make shapes in the snow

- It doesn't just have to be the classic 'snow angel' you create
- See what happens when you move your arms and legs in different directions
- Stand up and look at the funky shapes you have created

3. Make a snow maze with your feet

- **Can you use your feet to hollow out a path in the snow**
- **Make the maze wind and twist**
- **Once you have finished get others to walk through your maze just for fun!**
